PROFESSIONAL SUMMARY

I am a driven and forward-thinking B.Tech. CSE student with a profound passion for technology and a commitment to achieving excellence in the field. My academic journey has equipped me with a solid foundation in computer science, covering key areas such as algorithms, data structures, and programming languages like c++,java and python.

I have actively sought practical experience through hands-on projects and involvement in coding competitions and hackathons, where I've honed my problem-solving abilities and programming skills. My participation in tech clubs and student organizations has fostered teamwork and creativity, making me an effective collaborator.

As I approach the next phase of my education, I am eager to leverage my knowledge and skills in a professional setting. I am committed to continuous learning and staying up-to-date with industry trends. I am seeking a tech role where I can contribute my fresh perspectives, adaptability, and enthusiasm to drive innovation and growth.

In summary, I bring a strong academic foundation, practical experience, and a thirst for knowledge to my pursuit of a rewarding career in the tech industry.

PROJECT

Project Title: URL Shortener

Designed and developed a URL shortener website , showcasing proficiency in web development, database management, and user experience design. This project aimed to provide a user-friendly solution for converting long URLs into concise, easy-to-share links.

Key Achievements:

- Frontend Development:** Created an intuitive and responsive user interface using HTML, CSS, and JavaScript, ensuring a seamless user experience across various devices and browsers.
- Custom Short Links:** Developed a feature that allows users to customize their short links, offering a personalized experience for users.
- Testing and Debugging:** Conducted comprehensive testing and debugging to ensure the application's reliability and performance.

Project Title: Landing Page Design and Development

Description:

Conceptualized and executed a visually captivating and user-focused landing page for [mention the purpose or organization, e.g., a startup, personal brand, or product launch]. This project served as a demonstration of my expertise in web design, frontend development, and digital marketing.

Key Achievements:

- Creative Design:** Crafted a compelling and aesthetically pleasing design that effectively communicated the brand's message and value proposition. Utilized tools such as Figma for wireframing and design mockups.
- Responsive Development:** Implemented the landing page using HTML, CSS, and JavaScript, ensuring seamless adaptability across various devices and screen sizes for an optimal user experience.
